Last Summons'

DEATH OF MRS. JANE SMITH.

Brendenburg, Ky., Oct. 20.—(Special)—The sad news of Miss Ruth Willett's death was received here Sunday morning. She had passed away at 3 o'clock.

Miss Willett was a daughter of the Baptist minister, Rev. John Willett, of Wolf Creek. Her brother, Richard, is Circuit Clerk of Meade county. His home is in Brandenburg and she is well known here, as she had frequently visited him.

The deceased was a bright, sweet and intelligent young lady and one of the leading teachers of Meade county. She closed her school at Paynesville three weeks ago and went to her father's, where she was quite sick, but the case was not considered serious until a few days ago.

Many friends throughout the county sympathize with the bereaved family.

Christian Woman Dead.

Brendenburg, Ky., Oct. 20.—(Special)—The illness of Mrs. Jane Smith has been mentioned several times in the News. On last Tuesday night, Oct. 19, she quietly passed over to a reward well deserved.

Mrs. Smith was a Miss Woolfolk, sister of Judge J. P. Woolfolk, her only surviving brother. When very young she was united in marriage to Cal Richardson. Her second marriage was to Robt. Smith. She was a devoted and pious woman, and lived her entire life of sixty-eight years in Meade county.

The deceased was a devout, consistent member of the Baptist church. She professed nothing she did not practice. Each and every day she proved her loyalty to her heavenly Father, who, like all mortals since the fall of Adam, had her share of trouble and sorrow, but patience, submission, resignation were strong holds to tide them over. As a mother she was all that a good mother should be. As a grandmother she was loving and faithful. Be it said to the honor of her children none could have more attentive. Mrs. Smith died at the residence of her son, D. S. Richardson, who, with two daughters, Mrs. R. H. Newitt and Mrs. J. A. Smith, survive her. The funeral services were conducted by the Rev. J. L. Hart in a most impressive manner at the church. The flowers were beautiful. The interment was in the Brandenburg cemetery.

After the Law Breakers
With Heavy Hand

CIRCUIT COURT PROCEEDINGS

Hardinsburg, Ky., Oct. 20.—(Special) The following are Circuit Court proceedings for the first week:

The cases of Dr. A. M. Kincheloe, Dr. P. W. Foote and Dr. J. M. Walker against the county for medical services rendered small poor patients, were compromised by the county agreeing to pay them sixty per cent. of the several amounts claimed.

In the action of McEl Dowell vs. Alfred Hawkins, etc., the report of sale was confirmed and the case continued until the next term of court.

An agreed order was entered in F. W. Batesco vs. Columbia Finance and Trust Co. directing the sale of the Tar Springs property, no bid to be received for less than \$2,500.

The petit jury for this term are: S. E. Basham, John Farrow, Joe F. Parsons, Jno. B. Butler, F. F. Dean, John Wimp, J. B. Ricketts, M. C. Squires, T. N. McGlothlin, M. C. Delemotte, Eli Chapin, Marion Beeson, Henry B. Bond, J. L. Gray, John Stannett, John Alexander, J. C. Mattingly, Nelson Claycomb, R. B. Pierce, Wm. A. Jolly, David Driskell, Wm. Carman, Julius Hutchins and John H. Elder.

The prosecution against Joe Jackson, who was charged with horse stealing, was tried Tuesday and the defendant acquitted. R. B. Pierce was the foreman of the jury.

There have been six divorces granted at this term.

James Simpson, Lewis Rankin and Charles Salmon were each fined \$30 for gaming.

The case of Solomon Shelman vs. W. E. Brown was transferred from the ordinary to the Equity docket and continued.

The non-resident, in the case of Marcella Robertson vs. Eugene Robertson, moved the court to require the plaintiff to give bond, which motion the judge sustained, and she was given until the first day of the next term to execute bond.

In the case of John Hall vs. J. G. Harris, etc., the defendants moved to require the plaintiff, be being a non-resident, to execute bond for cost by the first day of the next February term. Said motion was sustained.

The suits for damages against the H. & S. L. R. by the Bin Jolly's Ex-contris, Peyton Scott's administrator and T. M. Board were continued until next term.

Larcena Cecil, a negro boy about 20 years old, was convicted of striking another with intent to kill, and sentenced to one year in the penitentiary. He is the only one to go to the penitentiary as a result of trials at this term.

The action of Clyde Carville against the L. H. & S. L. R. Co., was compromised by the railway company paying \$50 for killing Mr. Carville's horse.

In the prosecution against Noney Raymer, charged with shooting another in sudden heat and passion, the proof tended to show that it was accidental, and he was acquitted by the jury. Henry B. Head was the foreman of the jury.

The Grand Jury returned sixty-one indictments, considerably more than have been returned at any term for years. Two are for false swearing, one for horse stealing, several for gaming, three for carrying a concealed deadly weapon and most of the others are for violating the laws in regard to intoxicating liquors. Six against Billy Fallwood and fourteen against the Louisville and Evansville Packet Co. were returned for violations of the liquor laws.

The Grand Jury was finally discharged on Saturday afternoon, they having completed their investigations.

The damage suit of F. W. Hall against the L. H. & S. L. R. Co. is set for trial on the tenth day of the term, next Thursday. It is expected that it will consume three days of the term in the trial of the case.

Court will, in all probability, last until next Tuesday, October 27, at which there are four jury cases set for trial on October 28.

ONE LUNG

May be gone and yet the remaining lung will be amply sufficient to sustain a vigorous vitality. As a general thing few people make more use of both lungs than is equivalent to a healthy use of one lung.

These facts are all in the favor of the man or woman with weak lungs, even when disease has a strong grip on them.

Many a person living in health to-day has the lungs marked by the healed scars of disease.

Dr. Pierce's Golden Medical Discovery makes weak lungs strong. It cures chronic, bronchitis, coughs, bleeding lungs and other conditions, which, if neglected or unsatisfactorily treated, find a fatal termination in consumption.

"I had been troubled with weak lungs for years and the trouble had almost become chronic," writes A. S. Mum, of Haver, N. H. "I had several kinds of medicine from different physicians without much benefit. At last wrote to Dr. R. V. Pierce and got his advice, and began using his Golden Medical Discovery. I have used twenty-five bottles, and I am now in perfect health. I feel better than I did before I got sick. Have a good appetite and am able to do my work. I strongly recommend Dr. Pierce's Golden Medical Discovery to all who are afflicted with it."

Those who suffer from chronic diseases are invited to consult Dr. Pierce, by letter. Free All correspondence strictly private. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets assist the action of the "Discovery."

These October Days.

By Mrs. H. B. Grinnell.

These October days are soft, beautiful and enticing. There's a beauty everywhere—somewhat pathetic, with Nature giving a last new color to every landscape ere she bids farewell to earth for a season; and while we gaze and while we gaze and wonder how all things now so full of animation can wither, perish and die, we realize how little we know of the problems before us.

Life and death are mysteries, and while we admire the changing panorama, we cannot appreciate the delightful solution, because so ignorant of the problems. We are surprised at each altering background or foreground, to know that the ancient Greeks so longed in art, letters, sculpture, painting, and with such an exquisite sense of beauty, never practiced landscape painting. It was something more than scenic or decorative work, and thus fell far short of what is now our standard for such painting. We cannot understand why they failed to seek nature for models. If Zeus could paint grapes so perfectly that birds came to peck at them, why couldn't he have succeeded in landscape painting? Surely he had seen the Indiana hills in October, the Ohio so still and calm on these beautiful moonlight nights, the sky with its ever-changing beauty—in fact, the landscape far and near—his imagination would have been so awakened that he, perhaps, would have put the scene on canvas.

Think of the Indiana hills, the Ohio and its moon-light scene, when the Golden Age, reigned, 476—300 B. C. Even modern Greece, with her University of Athens, is stepping back two generations.

Will Greece ever renew her ancient literary glories, and will she ever prove herself worthy of her illustrious ancestors?

O. V. I. AT EVANSVILLE.

The Ohio Valley Improvement association had its most profitable meeting since its organization, at Evansville last Thursday and Friday.

Embodied in the resolutions were recommendations that the former reports of engineers regarding the plans for Ohio river improvements be sanctioned; that the Finance Committee of the association be commended for its useful work in getting the association out of debt; that the present be commended for its general support of the movement to improve the river; that the legislature of Ohio, West Virginia and Indiana be thanked for their resolution supporting the movement; that the officers of the association and that the statement who attended the meeting have thanks for their work and attendance. The resolutions concluded with the statement that "the convention in this city had been the most important and the most successful in the history of the association."

The Association will have its meeting at Huntington, W. Va., next year. Cannelton, Owensboro, and Tell City were among the towns that sent delegates. Cloverport should have sent delegates but didn't.

THE NEWER SURGERY AND MEDICINE.

When that genial philosopher, Mr.
Doolley, had occasion to discuss the im-
portant theme of sickness, he concluded
that it must be little different
whether you called in a Christian
Scientist or the doctor—provided you
had a good nurse.

"Not quite so radical, but tending
much that way are the conclusions of
Dr. Beverly Robinson in the Medical
Record. He shows that we have had
too much surgery, and too much medi-
cine. Quoting Dr. R. H. Fitz, of Bos-
ton, who carefully analyzed numerous
surgical operations, during a period of
ten years, he says, "that many of
them could not be justified if either
the immediate or remote results were
fairly considered." In speaking of
haste in operating for appendicitis,
Doctor Robinson invokes the authority
of Doctor Treves, who, it will be re-
membered, had charge of King Ed-
ward's case last year. He says, "Dr.
Treves lays stress upon the fact that
the great majority of cases of appendi-
citis recover spontaneously without
either an operation or the formation
of an abscess, that the ultra-cruel
cases are actually rare."

Doctor Robinson's conclusion as to
surgery is: "Examples might be
given which would go to prove that
what to some seems advancement in
surgery of our day is in reality only
proof of too great hardness or of igno-
rance of the great purposes of this
noble art. "By, then, allow it to go
into most hazardous ways, and espe-
cially where the ultimate are very great
against any real or lasting success be-
ing returned? We are prepared to
grant the immense triumphs of modern
surgery, thanks to asepsis and per-
fect drainage. We only become scepti-
cal and inclined to criticize and op-
probriate when, through the very im-
portunity which skill and opportunity afford,
it shows a subservience to these fac-
tors, when, with a wider knowledge
and appreciation of general laws which
govern disease, surgery would man-
age operations which are useless or
dangerous, or, perhaps, while involv-
ing little slight risk, may be followed
sooner or later by consequences more
lamentable than the original distur-
bance of organs or of health from which
the patient primarily suffered."

So far medicine is concerned the
writer approves of the employment of
hygienic methods and very simple
remedies rather than an indiffer-
ent use of strong drugs, which are
nearly always harmful. He in part
says:

"Medicine has her great and noble
achievements also: likewise she has
many blunders. The constant adminis-
tration of new drugs foliated upon as
at every turn seems to be a great ill.
Among them only a limited few are
really useful and relatively innocuous.
The powerful ones, and especially
those so much abused, the constipat-
ives, do great harm unless used
with rare good judgment and in
small or moderate doses at all times."

TITLE HAS TRUE RING.

An article headed "Col. Weisinger's
Mistake," that appeared in last
week's issue of the Elizabethtown
News, has the true ring and should be
echoed all along the line until heard
from one end of Kentucky to the other.
We remember Col. Weisinger, in his
speech at Bowling Green, in be-
half of the Democratic party, give us
his reasons why voters should not
support Col. Beckman for Governor
that the Republican candidate had
never taken a chew of Kentucky's
chief product and had never taken a
glass of whiskey, another of our lead-
ing products. The Elizabethtown
News, as we well know, a strong
advocate of Gov. Beckman and the
Democratic party. Here in substance
what it had to say of Col. Weisinger's
opinion:

"Col. Beckman's abstemiousness in both
particulars is to his credit and not to
his discredit and Col. Weisinger is
the first man who ever proclaimed
from the stump that chewing tobacco
and drinking whiskey were accom-
plishments of gentlemen. Such habits,
the News says, are deplored by Chris-
tian gentlemen and are never com-
mended. The men who indulge in
these small vices have never urged
them as grounds for political sup-
port. The editor, by the more em-
phatic assertion, 'We want to emphasize
our condemnation of the foolishness
of Col. Weisinger, as in his real for
our candidate, Gov. Beckman, he has
stepped hard upon the toes of all moral
people of the State, who have no
patience with an advocacy of whiskey
at Fordville. The check for this term
product is to be sent to the Brecken-
ridge News and placed to the credit
of the East Fordville subscription list."

Good Printing

Is as essential to business as good stock. When in corre-

of the person or firm whose letter is written on stationery that

favorably of the one that
is written on stationery
that bears a mark of excel-

Your Uncle Fuller Coming.

Glendene Ky., Oct. 14, 1903.—Dear Sir: I see the Old Fiddlers' contest comes off Oct. 29. You can bet your last dollar I will be there dead or alive. This man who played while the insects entered Noah's ark don't have any effect on me, and he will tell you all so after it is over. I go away back and bring up the old pieces that Adam and Eve played in the garden, the oldest music on record. All I ask is a fair show and if I don't get the prize I will make some man scratch his head where it don't itch. I don't need any snake oil if I am the old snake skin doctor. I will hear me rattles on the 29. I know I can win if I don't have to play over twenty-four hours. I am good for that long and never play the same old tune the second time. So you can look for Uncle Fuller.

Yours,
Louis Ashley.

LYNCH LAW.

It May Have Taken His Name From a Mayor of Galway.

About the year 1200 one James Fitzstephen Lynch was mayor of the town of Galway, in Ireland. He had sent his son on a trading expedition to Spain with a good cargo and a large amount of money. The young man returned with a ship load of valuable commodities, which he reported as having been purchased with the money and with the proceeds of the outgoing cargo. After some time a Spanish cargo along, demanding payment from the mayor for the goods he alleged had been bought on credit by his son. The mayor declined payment, as his son averred he had paid in cash for the goods. Unfortunately for the mayor, a sailor who had been one of the crew on examination by Mayor Lynch declared that his unworthy son had spent in reckless dissipation nearly all the money entrusted to him, but the proceeds of the cargo as well; that he had then bought goods from a large firm on credit, and when one of the partners of the firm came down to the ship before sailing to receive the money young Lynch murdered the man and had him thrown overboard to conceal the facts from his father.

The young man was immediately arrested and brought before his father, who, notwithstanding the fearful entreaties of his wife and daughters, sentenced him to death. He took him upstairs in his warehouse, adjusted a noose around his neck, having first secured it inside, and then pushed the young man out of the window, where his dying struggles were witnessed by the inhabitants of the town of Galway. In the town records this entry is yet to be seen:

"James Lynch, mayor of Galway, hanged his own son out of the window for defrauding and killing strangers, without marital or common law, to show a good example to posterity."

It may be from that incident that Lynch law took its name. It is not a peculiar American institution, as is commonly supposed, but has been practiced in other countries. The English had a walled town in Devonshire of the name of Lydford, which became noted for the summary punishments inflicted on notorious offenders. They became proverbial in England as Lydford law, and it is not impossible that Lynch may be a corruption of Lydford. In Scotland it was known as "Edburgh justice."

James Lynch, a justice of the peace in one of the Piedmont counties in Virginia, whose methods were both summary and severe, is also credited with having given his name to this offhand and expeditious mode of dealing with criminals now generally known as Lynch law.—Pittsburg Gazette.
